What's new in Elden Ring:

Best UI and Graphic

The game is designed for VR, which means that the interface itself will change. We have adopted a new UI in AEGIS OF LANDLORD, which is designed to put you in virtual reality and allows you to experience things intuitively and comfortably. It also allows us to incorporate your progress from the past. In addition to a change in interface, we will also make the game experience smoother and the graphics sharper than previously possible, with improved weather and lighting effects, and the opening and closing of the door. ====== Nicholas_C I just bought this in the Steam store. Looks interesting. I wonder if you will ever grant rights of consultation or the right to peremptory notification. Unlike many other games in the video game genres, this is about the relationship between a principal character and a NPC. For a few cases where the third-party has permission to remove content, it is critically important for them to protect that right. That is the case with Amazon, for instance, who as a third-party has rights to all the games they sell. When they stop selling Steam keys, that content is no longer purchasable. Regardless of how much we wish it would change, this is just a platform, it isn't a company. ------ m_felps Looks really interesting! I just started playing and I'm not even at level 2. I have to say, I really like the combat system - when I'm at the table it's really fun to fight and I love the weight and timing of my attacks. I don't know if I'll be able to stick with the game though. According to the info the plan is that levels will not get more difficult as you advance, but instead they will get longer. I'm worried that I'll get overwhelmed by the simplicity of the combat and will stop playing before I get deep enough into the game. Have you considered to have a skill tree for combat skills? So that the more you use a skill, the more you learn it and you can go as deep as you want. ~~~ babayega2 I agree with you. I will stay away from the combat. The socialization and

In 2014, Alexa Sellers was presented with a rare opportunity to pursue that dream at "Soap Acting Rocks! A Day of Sexy Cosplay and Live Modeling." Though she'd been modeling at local events since she was 16-years-old, Sellers would never forget the experience of being "on stage," as she described it. "There I was, on stage in front of 50 girls and 30 guys who were being entertained by the different models," she said. "I sat next to my mom and grandparents, who were at the event, and we laughed about the little girls [who] didn't know a lot about me." In the middle of the joke, she heard her name being yelled out and realized it was time for her turn to come out onstage. "When I walked onto that stage, I thought this is really weird," she said. "Everyone's looking at me, I'm not even seeing the girls. I'm just looking at my mom and this lady standing beside her and, all of a sudden, it hit me — I wasn't at school, I was 'on stage!'"
