I am very much impressed with your writing skills as well as with the layout on your weblog. Is this a paid theme or did you customize it yourself? Anyway keep up the excellent quality writing, it is rare to see a nice blog like this one today.. Hello there, just became aware of your blog through Google, and found that it is truly informative. I am gonna watch out for brussels. Iâ€™ll appreciate if you continue this in future. Lots of people will be benefited from your writing. Cheers! The problem is when you get overconfident and want to use all modes and do a massive charge attack with a lot of units in it (like Â£1k to Â£2k worth of unit). You are bound to run into problems. Idealized. I would usually recommend 0.75Â Â (about 0.8-0.9Â Â is also plenty for most armies), but that would be based on the numbers you have displayed above: 21+125 troops, at least 2-3 dogs or ravens, and about 2 or 3 cataphracts. With that much manpower, you could easily have 6 or 7 dog's rangers around your rearguard, as long as you have mages to compensate for the cavalry units getting hit. There are a couple of formations where you want more archers than what you have displayed above: see the link in the below post for a few examples. Hello there!Â If you can use this link, you can watch a tutorial: Itâ€™s a neat little video that illustrates how to build the unit, how you construct a base, and then how to add recruits and units to it and add them to an army. then best steam mp + crack. i love this game. can you get that game to work with ivy bridge ie steam on a mac and by long stem the mac. i thought the original was the best game in this series. could you get that to work â€™m glad you liked this video! There are definitely â€œwhyâ€ and â€œhow toâ€ videos available for the Mac OS
