KMSAuto Easy.I would like to know if anyone is doing site specific kitesurfing and have done any major work on their truck. I am looking for a round and square for the bed. My truck is 25' long. I would like a longer air chamber than I have (12') and a longer rail on the back. I am planning on running dual rails on the trailer as well. I

want to do a big rig site specific. If anyone is looking for a car kitesurfer I would like to hear about it. Thanks, Rob

I'm leaning toward running a 14' x 14' wing

on the rail and center bar and not getting the complete pontoon. I want to be able to launch and land at extreme distances as well as maneuver.
