

You have the right to judge the source like the one who says that I'm mentally ill. This should not cause any problem with the website or users, this is pretty much the same pattern that Stack Exchange uses in cases of repeated abuse. A: There was a minor violation of the terms of service, and this was resolved by deletion of the user's account and related discussion on meta. We do not delete the account until the user has been contacted and has changed his behavior, which in your case has been done. You may also want to contact the Stack Exchange Team, and they may want to drop a note to the person, but I'm guessing they won't do that as you are not a moderator.

6.02.2013 Christmas Cookies with Ree from The Pioneer Woman Here are some Christmas cookies from Ree from The Pioneer Woman, a kitchen blog I love, and the domain of her family (her husband/dad and his brothers; grandmother and mother), and a former professional athlete (Greg). These are perfect for a Christmas cookie exchange. They are light, moist, and I wouldn't change a thing about them. 22 comments: Oh, I love Ree and her wonderful website. I, too, love, love, love her cookies. Being from Texas, I know what she means about having a decent amount of snow. And I must say, I like your non-Christmas comments better than most of the ones in my bag. Keep them coming. I don't usually comment on blogs, but I need to tell you about your blog and tell you that I love your photography. Perfect recipes and beautiful pictures. I LOVE these cookies, and I have some of her recipes in my files. The camera is pretty cool too! I had to send it to the "family" (looooooong story) and the only thing they took were her cookies. Just cookie files and cookie cards. Love her site!

Last month, Netflix made an interesting announcement about its plans for the future in the world of media and entertainment: It plans to stream new movies and TV shows directly to customers' televisions, using its own internal content-delivery network (CDN). For now, it will be available only in the United States. And it will require a slightly complicated, multi-step process to get customers' TVs onto the new network. But according to a recent report in The New York Times, the
