## **NOKIA MODEL 100 TYPE RH 130 UNLOCK CODE !!EXCLUSIVE!!**

one of the things i will be adding to this page is all the codes for nokia devices that need to be reset back to factory defaults. i tried to link to the nokia support pages that has this but the links are not working. i will be adding these as i find them. as you probably know, nokia phones have a security code that is kept secret. the security code is set by the cellular carrier. and you will not be able to use your nokia phone if you haven't entered your specific code. step 1: open the nokia pc suite app and click on the "settings" option at the bottom of the app window. next, click on "security" at the bottom of the app window. next, click on "lockscreen" at the bottom of the app window. next, enter your password and click "ok". once you click "ok" you will be prompted to enter your unlock code. enter your "nokia phone's" unlock code and click "ok". once you click "ok" you will be prompted to enter your "nokia pc suite" unlock code. enter your "nokia pc suite" unlock code and click "ok". once you click "ok" you will be prompted to enter your "nokia pc suite" unlock code again. if the process failed, you can try to update the nokia pc suite app. open the nokia pc suite app and click on the "settings" option at the bottom of the app window. next, click on "security" at the bottom of the app window. next, click on "lockscreen" at the bottom of the app window. next, click on "update nokia pc suite" at the bottom of the app window. next, click on "ok" at the bottom of the app window. once you click "ok" you will be prompted to enter your "nokia pc suite" unlock code. enter your "nokia pc suite" unlock code and click "ok". once you click "ok" you will be prompted to enter your "nokia pc suite" unlock code again.

## **NOKIA MODEL 100 TYPE RH 130 UNLOCK CODE**

when you turn on your nokia nokia phone for the first time or unlock it for the first time, your phone will ask you for a security pin or password in order to enter your phone. the phone will ask you to enter this pin every time you boot into recovery mode or unlock your phone. so you won't forget the security pin, the phone comes with a conveniently placed removable battery which stores the security pin. to use the removable battery, remove it from your phone. 5. once your nokia phone boots, press and hold the home key, the power button and the volume up button until the phone screen displays the keypad. you will see a number pad on the right side of your phone's display screen. i am sharing a nokia model 100 unlock code to all our friends, colleagues and readers who are suffering from the same problem of not

---

being able to use their phone security code. hope this post will be of your help and you will be able to change the security code on your mobile phone. here is a little trick i would like to show you how to change the security code of nokia model 100 phone, it is working perfect, just try it and you will believe me. i think you do not need to open any software just follow the steps i am sharing below. have you already forgotten your nokia model 100 security code and want to change it? you have done the right thing to read this article to know the steps to change the security code, and my job is to help you as much as i can. in order to change your nokia model 100 security code you have to have a software such as nokia care. there are thousands of software out there to help you, but i recommend to use nokia care, it is the best of them all. 5ec8ef588b
