Massachusetts Children's Hospital has a long history of excellence in pediatric care. When we look back at the history of the hospital we see that in many ways we are very much like our past, taking note of the pioneering work of founders Charles E. Chase and his wife, Maude Chase, who established Massachusetts General Hospital for Children on Broad Street in Boston in 1884. Over the years, our policies have reflected our progressive vision of providing the highest quality of care for our patients, nurses and doctors. In this century, we've focused on making a difference in the life of children by focusing our attention on many areas. We have a nursing home, a school, play therapy, child life services, an outreach program, a special care nursery, as well as a growing array of programs that are showing excellence in pediatric care. Our youth and family programs are among the best in the country. Our children's services program is world renowned. And our dedicated, compassionate, caring and creative pediatric staff ensures that every child receives an excellent, comprehensive and loving educational program
